

ORGZYM CHD

Orgzym CHD is a dehairing enzyme, based on enzymes

Appearance : Brown powder

Basis : Mixed enzymes. Predominantly alkaline protease

pH (1/10) : In 10% aqueous solution, 6.5 – 7.5

Active pH : Above 9.00

Solubility : Good

ADVANTAGES

ORGZYME CHD

- A special formulation for unhairing cow skins.
- Significant reduction of the usage of Sodium sulfide or even complete elimination of Sodium sulfide.
- Removal of hair with good quality and strength hence good value for money.
- Leathers with good strength and increased surface area.
- Reduced load on effluent thus good ecological atmosphere.

APPLICATION

3.0 to 6.0% depending on the nature of the skins

SHELF LIFE

Under dry and cool storage conditions, the product does not show any problem. On prolonged storage for long period the activity may be reduced which results in higher percentage in application.

Technical suggestions without any obligation.
