

ORGCIDE SP

ORGCIDE SP a TCMTB free biocide, highly efficient, to prevent fungal growth of wet blue leather, when it gets resistant to TCMTB.

Aspect	: Transparent solution
pH	: In 10% aqueous solution, 6.0 – 8.0
Stability	: Excellent in Pickle and Chrome tanning floats
Solubility	: Disperses easily in water
Biodegradability	: Biodegradable. Free from PCP

PROPERTIES

ORGCIDE SP

- Protects the surface and the inner parts of the leather as well, against fungus and mould attacks during production processes and storage.
- Being a proprietary blend of fungicide, acts synergistically and therefore has a wide spectrum of activity against several fungus species.
- Since it is highly soluble it distributes in all parts of the hides and skins, gives high, long term efficiency.
- Being free of TCMTB does not give irritation to the skin; this allows easy handling in the tannery.

APPLICATIONS

Based on pelt / pickle wt

0.1-0.3% **ORGCIDE SP** (1:10 in water) can be used

SHELF LIFE

If **ORGCIDE SP** is stored between 15°C and 35°C, the product has a shelf life of one year. Special care should be taken to close the drums after use.
