

GG ORGANICS PRESENTS AN EXQUISITE ARRAY OF EXCLUSIVE LEATHER COLLECTIONS AT IILF 2023

GG Organics is excited to announce our participation in IILF 2023, marking our highly anticipated return after a two-year absence due to the COVID-19 Pandemic. We are proud to showcase our exceptional collection of premium leather articles, developed using sustainable chemicals.

This year, we are introducing two new brands: **SUSTAN** and **BENITAN**. SUSTAN offers a wide range of bio-based chemicals, promoting a circular economy in leather production. BENITAN, our newly developed range of low Bisphenol Syn-tans, gives tanners an edge in the market by creating risk-free leathers. These remarkable brands will be seamlessly integrated into our exclusive leather collections presented at IILF 2023.

We invite you to explore the collections of GG Organics at booth Hall 2-03-A, where our commitment to customer satisfaction shines through. Join us at IILF 2023 and experience the perfect fusion of superior quality leathers and sustainable practices.
